DIAL LOCK 57

A white rectangular electrical unit with three outlets and a switch. The top outlet is a standard duplex outlet, the middle is a GFCI outlet, and the bottom is a standard duplex outlet. A single-pole switch is located to the right of the outlets.

An open white electrical panel showing internal wiring. A central breaker is visible, with wires connected to it. The panel is mounted on the wood wall.

DIAL LOCK 57

A white rectangular electrical unit with a single-pole switch and two outlets. The switch is on the right side, and the outlets are on the left side.

A white rectangular electrical unit with two single-pole switches and one duplex outlet. The switches are on the left side, and the outlet is on the right side.

A white rectangular electrical unit with a single-pole switch and a GFCI outlet. The switch is on the left side, and the GFCI outlet is on the right side.
