WOOD VENEERS

Wood Veneer // SHED PLANKS 03 on a door

SELF-ADHESIVE WOOD VENEERS

Here is how you give rooms a new look in no time: Using an innovative printing process, we give real spruce veneers the unique design of reclaimed wood, precious wood, oak wood or even concrete!

Whether you are thinking about doors, cupboards, glass walls, or an old bed back panel that no longer suits your taste: With our extraordinary veneers, furniture can quickly and easily be covered and upgraded! The reverse side of the veneer has an approx. 1 mm thick full-surface and strong adhesive. For flawless mounting, we recommend a surface that is as smooth as possible and free of dust and grease.

Mounting instructions and video can be found at www.stainer-sunwood.com

The self-adhesive back allows for particularly easy installation.
