*Georg Ackermann GmbH*

— Wir bringen Platten für Sie in Form —

We have the pleasure to introduce Flexform Plus from company Ackermann.

The patented Flexform Plus panel is a pitthy example for our leading competence in manufacturing special formed components and furniture as well as forming laminated-, veneer- and aluminium covered boards. With this, we offer an intelligent solution which considerable simplifies the manufacturing and processing of shaped furniture and elements. With the patented layer construction we can even shape high gloss boards, radial and axial. Thereby we can achieve incomparable results in this currently popular sector. Merton A/S presents Flexform Plus in the Nordics countries.

Interested?? Contact us.

Kind regards Team Merton
